ROAD WORKS ASSOCIATED WITH THE CONSTRUCTION OF THE NEW SOUTH TUGGERANONG FIRE STATION

This leaflet is to inform you that Tharwa Drive, from its roundabout intersection with Drakeford Drive through to Mentone View, will be closed between the 5th and 26th of January 2015, to enable the installation of a new sewer main pipe to be connected to the new South Tuggeranong Fire & Rescue station, construction of which is at an advanced stage.

Details of the road closure and detour route are shown on the aerial map on the other side of this page.

The construction team are confident of completing the work by mid-January 2015, however, additional time has been allocated for the work to be done because of the potential for bad weather and/or other issues that may impact on the road excavation.

The ESA suggest local residents, business operators and workers plan any road travel in that area with consideration given to the potential for traffic congestion and delays, particularly during traditional periods of peak traffic. The ESA and Roads ACT appreciate your understanding and patience in relation to any delays the road works may cause for you.

This road work is necessary to help complete the final stages of the construction of the new South Tuggeranong Fire & Rescue station which is on track for completion in March 2015.

Firefighters are looking forward to serving and protecting the Tuggeranong community from the new station which is located at the roundabout intersection of Tharwa and Drakeford Drives.

When the station becomes operational, the ESA will have an 'open day' for the community to visit your new station. There will be plenty of fun and engaging activities for the young and old. We will advise you of the 'open day' details closer to the time.

In the meantime, if you would like to provide feedback about this new fire station or this temporary road closure, then please send an email to the ESA at *esahaveyoursay@act.gov.au*
