

# INVITATION TO CONSULTATION WORKSHOPS ELECTRICITY NETWORK 5 YEAR PLAN

We are currently preparing our electricity network plan for the 2019/20 – 2023/24 years. This detailed plan will explain how we intend to operate and maintain the electricity network to meet the future needs of our customers. We will submit our proposed plan to the Australian Energy Regulator in January 2018.

## AS PART OF PREPARING OUR FIVE YEAR PLAN WE ARE SEEKING INPUT FROM OUR CUSTOMERS.

Residential customers, small business and commercial customers are invited to attend one of these workshops:

- WHAT:** Customer consultation workshops on the 2019-24 ACT Electricity Network Plan. The Electricity Network Plan relates to the ACT electricity distribution network (the poles and wires business).
- WHY:** An opportunity to provide input to the development of the 2019-24 ACT Electricity Network Plan. Discussion will cover areas that include operational expenditure, capital investment and network tariffs.

### LOCATIONS: BUSINESS WORKSHOP

Tuesday 18 July 2017; 4.30 – 6.30pm  
Canberra Business Chamber  
220 Northbourne Avenue, Braddon
