# College Climate Change Conference

By 2020 transport is expected to account for over 60% of Canberra's emissions. Switching to active transport is therefore a high priority and presents one of the biggest challenges in meeting our 2045 target of achieving net zero emissions.

This exciting conference will provide college students with the opportunity to join together and voice ideas and innovations to tackle climate change head on.

The key theme for this conference is Active Transport.

Discuss issues, challenges and share ideas, such as how to get the students, staff and the community involved.

## WIN AN E-BIKE

Upon registration students may also opt-in to be in the running to win an electric bike. Find out how by going to [www.actsmart.act.gov.au](http://www.actsmart.act.gov.au) and going to the Actsmart Schools landing page.

## CONFERENCE DETAILS
