

# Synopsis

## Tuggeranong Community Council Youth Engagement Survey

---

### *Executive statement*

The Tuggeranong Youth Survey started 5 years ago by members of the Tuggeranong Community Council and the Tuggeranong Community Council Subcommittee. It acts as a reference point for the Council and the subcommittee to work with, and on behalf of youth to help solve issues. It is the starting point for issues brought up in the Tuggeranong Community Council's Youth Engagement sub-committee, where students and young people can voice their options about issues in the community. This document acts as a synopsis for this survey and the data within the survey and will summaries any key details and necessary facts for the read to understand from this survey.

## ***Closing statements***

---

The main concerns that were shown is the need for more action on climate change that many youths believe that there is more that the local and federal government can do to help the issue. Transport is another major issue flagged by this survey, with the need for more services on the weekend and more remote services to NSW and regional ACT. They also wanted more fairs and youth driven events. The last major issue flagged was the need for more youth leadership and youth activities in the Tuggeranong region. In closing there is a lot of issues that require action within the Tuggeranong community regarding youth outreach and global warming.
